

Ocean Outfall Group
Returning the Oceans to Health and Abundance

April 25, 2008

Congresswoman Susan A. Davis
Congress of the United States
House of Representatives
4305 University Avenue, Suite 515
San Diego, CA 92105

Dear Congresswoman Davis:

After viewing your letter to Brian Benczkowski of the U.S. Department of Justice citing the need for final and definitive protection for seals and sea lions at Casa Beach ('Children's Pool') in La Jolla, I feel compelled to write you one of my own.

In these uncertain times, remaining silent is easy and speaking out takes more courage than it did yesterday. So knowing, I applaud and support the choice you have made to stand up for these innocent creatures and the many people and children who love them.

Not only does your principled stand go a long way toward preserving a national treasure, educational opportunity and well-loved tourist attraction, but - perhaps even more importantly - it inspires those who follow your leadership to find some measure of courage within our own hearts.

Please feel free to call on my colleagues and myself for any assistance our organizations may provide.

Respectfully,

Joey Racano

Joey Racano, Director
