Dear Senator Kehoe:

Harbor seals in La Jolla are a major tourist attraction. Nowhere else in the country can you come so close to over two hundred seals living in their natural habitat.

More than 80% of San Diegans and 91% of La Jolla residents wish to have the seals protected all year round (Zogby International, May 2007, www.aprl.org).

Casa Beach (aka the Children's Pool) is home to the only harbor seal breeding grounds in mainland Southern California. Please help to save this natural treasure by **sponsoring legislation to amend the outdated 1931 state law** that prevents the city of San Diego from protecting the seals at this beach.

I know that you have sponsored progressive legislation in the past and that you have the well being of San Diegans at heart. Please help our community by modernizing outdated laws and promoting environment progress.

Sincerely,

Signature
